Employers & Importers - Changes for 2022

12th November 2021

Employers & Importers - Changes for 2022

There will be changes to pre-declarations for importing goods into the island and the new Combined Employer Return, both due to be implemented from January 1st, 2022.

Combined Employer Return

All employers must start submitting tax, social security contributions and manpower information monthly on the same return from January 2022.

Importing goods to Jersey

If you import goods to Jersey, before your goods are released, a pre-declaration of imported goods from outside the CTA (UK, Guernsey and the Isle of Man), commonly called “third county imports” will become mandatory from January 1st, 2022.

You can visit the Importing page on our website for information and video guides to help you navigate the process. We are also planning on hosting a webinar on the topic soon, so watch this space for more details.
