Jersey Retail - Retail People, the Data, Trends and Tips You Need

17:30 - 19:00 | 07/11/2023 | Radisson Blu Hote, St Helier, Jersey

In this meeting we will present Jersey's retail statistical data, including the latest data on average wages, minimum and living wage use. We will also cover what employee benefits we are seeing included in retail packages in Jersey, as well as details of what the British Retail Consortium's UK analytics team see now and predict for the employee market in 2024.

We will then be joined in person by local recruitment expert Tina Palmer who with over 29 years expertise knows a thing or two about what attracts employees to a business. We will discuss with Tina what do candidates really want? How can business stand out in such challenging recruitment market, and her top tips and pitfalls to avoid when trying to recruit.
