Join the September Productivity Circle - Using AI to increase productivity in the work place. Presented by Marcus Bailey - Prosperity 24/7

Book here

Understanding AI and its importance is crucial, as this type of technology is ever-evolving.

Why AI is Important: AI is transforming industries by enabling the automation of complex tasks, enhancing data analysis, and driving innovation. It's a key player in the global economy, contributing significantly and supporting the workplace. By understanding AI, individuals and businesses can stay competitive and adapt to new market demands.

How AI Improves Productivity: It streamlines operations, predicts demand, and enhances forecasting, which are essential

for operational excellence and efficiency. AI's ability to automate and improve processes can lead to significant time savings and cost reductions.

Benefits of Attending an AI Workshop: It's an opportunity to engage with experts, understand practical applications, and learn how to implement AI strategies that align with your business goals. The Productivity circle can also provide networking opportunities and access to the latest AI tools and resources.

Join us for a dynamic and interactive workshop.

Why Attend?

This workshop is not just about learning; it's about doing. You'll walk away with actionable strategies to assess and boost your productivity. It's a chance to network with like-minded professionals and learn from industry experts. Whether you're looking to optimise your own performance or lead your team to greater efficiency, this workshop is an invaluable step toward achieving your goals.

 Don’t miss this opportunity to boost your productivity!

 Boost Your Efficiency: Discover the latest tools and technologies that can revolutionize the way you work. Acquire the skills to streamline your tasks, save time, and achieve more with less effort.

 Networking Opportunities: Connect with like-minded professionals, industry experts, and potential collaborators during our interactive networking sessions. Share your experiences, exchange ideas, and form valuable connections that can elevate your career or business.

 Continuous Learning: Education is the key to growth and success. Expand your knowledge base with the latest insights, case studies, and real-world examples shared by our esteemed speakers. Be at the forefront of productivity trends and innovations.

Who Should Attend?

- Business Owners and Entrepreneurs
- Managers and Team Leaders
- Process Improvement Specialists
- Product Managers and Project Managers
- Anyone interested in enhancing their productivity and efficiency

Don’t miss this golden opportunity to gain a competitive edge in your industry and elevate your career to new heights. Register now for the Productivity Circle and be a part of the productivity revolution!

Limited Seats Available! Secure Your Spot Today.

The Productivity Circle is a free development and networking forum run by Jersey Business for people who, regardless of scale or position within their organisation, are practitioners, interested in or involved in the implementation of continuous business improvement within their organisations. It will provide an opportunity for sharing best practice; peer to peer learning and support for members to focus on continuous business improvement.

Who's presenting?

Marcus Bailey

Head of Cloud Prosperity 24/7

As the Head of Cloud Prosperity 24/7, Marcus brings extensive experience to his role. He is passionate about helping organisations adopt innovative ways of working that energise and empower their teams. He leverages cutting-edge AI tools to transform productivity, streamline collaboration, and enhance decision-making. His focus is on helping organisations fully harness the power of M365 Copilot, automating routine tasks, creating intelligent workflows, and ultimately freeing teams to concentrate on innovation and achieving their strategic objectives.
