The content

Throughout the workshop you'll discover practical and real-world ideas for you to instantly personalise and apply, which include:

- Lead without title! Why you MUST think, feel, and act like a leader first…the title comes later! Most aspiring leaders get this the wrong way round!
- The mindset shift in making the transition from individual contributor to effective Leader
- How to avoid the 3 common pitfalls that derail most new leaders

- Why should anyone be led by you? How to ensure people follow you because they want to not because they have to!
- How do develop self as a rounded Leader through your understanding and application of three parallel pathways; I Lead…self/business and others
- How motivation really works and why as a leader you cannot motivate anyone! You'll love the practical application of this idea!
- What are the 3 key skills in your Leadership tool bag to achieve mastery as a great communicator and influencer of others? Once you have these in your conscious mind, you'll use them all the time!
- What's the one defining question to use in order to set people up for success…not to fail?
- Why culture isn't a thing…it's EVERYTHING! In business and leadership, it's not just about WHAT you do…it's HOW you do it! HOW to create the right cadence and rhythm and build high performance teams.
- Why ACTION is the key! All great leaders have a bias for massive action! Do you?
