EYECAN 140th Anniversary Conference!

Don't miss out on this opportunity to connect, learn, and reflect together. EYECAN will be exploring how accessibility, inclusion, assistive technology and ophthalmic medical eye care has developed over the past 140 years, and where things might be heading into our future. Hear throughout the day from those with lived experience both locally and from the UK, with inspiring panel sessions and key note presentations from invited guests, and their own EYECAN team providing the local context. Don't

miss out on this unique opportunity to explore how Jersey can continue to develop into a community that supports islanders living with sight loss.

It is open to all particularly healthcare professionals, those living with sight loss or supporting someone with it, businesses looking to understand better how they can support any visually impaired stakeholders, be they clients, staff, Board members etc.
