Whether you're launching a business, working with clients, engaging suppliers or growing a team, clear contracts help protect what you're building. They establish expectations from the outset, reduce misunderstandings and give you something to rely on if things don't go to plan.

Join us at House of Champions for a practical and accessible session with **Vicky Milner, Partner at Viberts**, exploring the contract essentials every business owner should understand.

We'll cover:

- **Why contracts matter** – protecting your business before problems arise
- **The key terms** – what to look out for and what they actually mean
- **Getting paid** – setting payment terms, managing late payments and protecting your cash flow
- **Common mistakes** – the details businesses frequently overlook
- **Q&A** – bring your questions and receive practical guidance

Designed for founders, freelancers, consultants and business owners, this session will help you approach contracts with greater clarity and confidence.

**This is a CPD-accredited event**, combining practical business guidance with recognised Continuing Professional Development.
