

Jersey's safe exit – framework

The Government is pursuing a strategy to delay and suppress the spread of Coronavirus, **contain** it where cases occur, and to **shield** the vulnerable from it. The primary goal is to flatten the epidemic curve. The second is to exit this pandemic as quickly as we can safely do.

This framework is determined by the Government and specifies the public health and social measures to be taken at each level as we seek to progress through the pandemic as safely as possible. Further guidance is available on [gov.je](https://www.gov.je).

The framework is based on evidence available up to 11 May 2020. The measures may be updated based on new scientific knowledge about COVID-19, information about the effectiveness of control measures in Jersey and overseas, or the direction of travel (e.g. the application may be different if there is a surge of cases and Jersey needs to tighten up a level rather than relax a level).

A detailed statement of the measures to be introduced at each level, and supporting guidelines, will be published prior to the start of levels 3, 2 and 1. Where guidelines are mentioned below, they will be published by the Government in due course.

Any requirements placed on business in this framework are additional to regulatory and health and safety obligations.

General public health measures	Wash your hands with soap and water, or use a sanitiser gel throughout the day. Catch your cough or sneeze in a tissue, bin it and wash your hands. If you don't have a tissue, cough into your elbow and avoid touching your face. Clean and disinfect objects and surfaces. Cloth masks are advised, especially in enclosed public spaces such as shops and on public transport (for staff and customers). If you have flu-like symptoms, stay or go home immediately and call the Helpline on 01534 445566.			
	Keep 2 metres apart from anyone outside your household.	Keep 2 metres apart from anyone outside your household.	Keep 2 metres apart from anyone outside your household.	Keep 1 metre apart from anyone outside your household (especially on public transport).
	Test: increasing capacity to enable testing of all potential cases of COVID-19 (clinically judged to be displaying relevant symptoms). Stratified sample testing will be carried out to inform our understanding of the prevalence of the virus in Jersey over time. Trace: enhanced contact tracing capacity, enabling tracing of all confirmed and probable new cases of COVID-19. Isolate: home isolation for confirmed cases; household/self-isolation for people who are symptomatic or who've been in contact with confirmed cases; and self-isolation for anyone arriving into Jersey (unless by very limited exception). Enforced quarantine for individuals with confirmed or suspected COVID-19 who do not have sufficient capacity to self-isolate effectively, or choose not to do so.
